

INDUSTRIAL EQUIPMENT SERVICES

▶ **Steel Rolls**

Restoration & Overhaul

Steel Roll maintenance is critical for facilities in printing, paper, textile steel industries and more. Periodic maintenance adds years to service life, reduces cost of repairs and minimize the need for replacement. It also ensures that your equipment operates properly, preventing loss of efficiency and breakdowns.

**TOTAL INTEGRATED
ENGINEERING SOLUTIONS**

FROM THE LEADER IN SURFACE METAMORPHOSIS TECHNOLOGY

Key Components Serviced

Paper rolls, Calendar rolls, Wire rolls, Guide rolls, Forming rolls, Compression rolls, Impression rolls, Blanket rolls, Chill rolls and more.

General Scope-of-work

- ▶ Thermal spray coating (Flame Spray, HVOF & Plasma)
- ▶ Plating & conversion coating
- ▶ Plasma transfer arc and conventional welding repair
- ▶ Precision grinding & machining
- ▶ Matt or optical mirror finishing
- ▶ Dynamic balancing for anti-vibration correction
- ▶ Manufacturing of rolls & components
- ▶ Non-destructive test & measurement
- ▶ Laser alignment of rolls assembly
